

Revolution/Rogue Compatible Charging Handles

POF-USA and Mil-Spec AR-15/M-16/5.56/2.23 charging handles are compatible with the Revolution and Rogue platforms. Some other manufacturer's charging handles may not be compatible with the Revolution and Rogue platforms due to them using different internal geometry than Mil-Spec. This difference can cause the carrier key to impact the channel of the charging handle resulting in damage to the charging handle and/or the firearm in the indicated area.
