ENGINEERED ENTERTAINMENT

Our love of shooting, training, and prepping future shooters were the driving factors of development. We had to bring a quality to this platform which hasn't been seen before. Aside from its light weight of just over 3lbs, the PSG 22 is equipped with a rear Q.D. mount for single point slings, Enhanced Pressure Device, and threaded barrel ready for your suppressor. The receiver accepts AR-15 pattern stock and brace options, and the trigger and selector are also compatible with AR-15 options.
