ABOUT Phoenix

The Phoenix 9MM rifle features fully monolithic upper receiver with an ambidextrous forward charging handle and MLOK hand stop. Utilizing a direct blowback operating system and POF-USA's 35 round 9MM magazine. It's billet lower receiver features fully ambidextrous controls and a 1913 picatinny rail at the rear.

Standard Features

Monolithic Upper Receiver

Dual Chamber Muzzle Brake

(1) 35rd Magazine

Black Anodized or FDE Cerakote

Rear 1913 Picatinny Rail Interface

HIGHLIGHTS

AMBI FOLDING CHARGING HANDLE

The Phoenix 9MM's forward charging handle assembly is non-reciprocating and can be moved to either the left or right side of the firearm.

REAR 1913 RAIL + QD CUP

Easily customizable with stock options that quickly mount on the rear 1913 rail.

AMBIDEXTRIOUS LOWER RECEIVER

From the bolt catch to the safety selector, every aspect of the lower receiver is fully ambidextrous. Plus, flared mag well and mil-spec trigger.

THE ALL AMERICAN SUBGUN

Born from the ashes and designed from the ground up. The all new PHOENIX rifle is the perfect plinking platform yet built for serious duty. It's an ideal host for your suppressed shooting and features a 1913 picatinny rail at the rear with a mounted Mil-spec buffer tube and MFT minimalist stock. The direct blowback system has proven to be extremely reliable around the world. The PHOENIX will ship with a proprietary 35 round magazine, magazine loader, two port muzzle brake, Mission First Tactical grip, Mission First Tactical minimalist stock, Mil-spec buffer tube, and hand stop.
