ABOUT ROGUE

Project Rogue turned the Revolution platform into the lightest .308 semi auto rifle on the market. The result is a sub 6 pound .308 SBR packed with proprietary and patented innovations. The Rogue features a forged receiver set, stainless steel barrel, KeyLock DI BCG, ambidextrous selector, and Renegade rail & oversized heatsink barrel nut, finished with our Micro B muzzle brake.

STANDARD FEATURES

- 12.5" Match Grade Stainless Steel Barrel
- Mid-length Gas System
- Black Anodize, Patriot Brown, or OD Green Finish
- AMBI Selector & Charging Handle
- (1) 20rd Magazine

DESCRIPTION	PART #
308, BLK, 12.5"	01688
308, BRN, 12.5"	01813
308, OD, 12.5"	02097

HIGHLIGHTS

KEYLOCK BOLT CARRIER GROUP

Ultimate Durability. Keylocked, staked, and bolted in. This carrier provides superior gas key stability.

RENEGADE RAIL+ HEAT SINK BARREL NUT

Our new Renegade handguard with multiple QD points and patented oversized heat sink barrel nut for more effective heat dissipation.

ANTI-TILT BUFFER TUBE

Eliminate stock rotation and prevent carrier tilt by supporting the back of the carrier, as well as reducing wear and tear on the bolt carrier and the buffer tube.

ITS ABOUT THE WEIGHT AND THE SAVINGS

Project "Rogue" was an exercise to turn the Revolution platform into the lightest .308 semi auto SBR on the market, and to do it without needless "lightening" cuts. All while delivering a rifle at a price point affordable to serious shooters. The result is a sub 6 pound .308 rifle packed with proprietary and patented innovations. Thanks to its ridiculously light weight, never before has a semi auto .308 been a more realistic option to carry in the field, no matter how far the journey. The Rogue SBR features a stylized forged receiver set, stainless steel match grade barrel, Revolution DI BCG, ambidextrous selector & charging handle, multiple QD sling attachment points, and Renegade rail & oversized heatsink barrel nut, all topped off with our Micro B muzzle brake.

SPECS
