

PRODUCT SERIES

RENEGADE+

MODEL

PISTOL

ACTION

DIRECT IMPINGEMENT

AVAILABLE CALIBERS

5.56 NATO / 300 BLACKOUT

ABOUT RENEGADE +

The Renegade + addresses every weak point of the direct impingement system. Platform advancements such as our roller cam pin and patented heat sink barrel nut go well above mere aesthetics often found in firearms today.

- Black, Bronze, or Tungsten Finish
- Dictator Adjustable Gas Block
- Tomahawk Charging Handle
- 3.5lb Flat Profile Trigger

PATENTED E² EXTRACTION TECHNOLOGY

GEN4 FULLY AMBIDEXTROUS LOWER RECEIVER

HIGHLIGHTS

GEN4 AMBI LOWER RECEIVER

Built on the Gen 4 lower, the P415 is ergonomic no matter your shooting side or style

MATCH GRADE TRIGGER

3.5lb straight POF Drop-in trigger with KNS anti-walk pins.

ANTI-TILT PISTOL BUFFER TUBE

Eliminate tube rotation and prevent carrier tilt by supporting the back of the carrier, as well as reducing wear and tear on the bolt carrier and the buffer tube.

EXCEED ALL EXPECTATIONS

The Renegade+ addresses every weak point of the direct impingement system. Platform advancements such as our roller cam pin and patented heat sink barrel nut go well above mere aesthetics often found in firearms today. The Dictator 9-position adjustable gas block gives you ultimate control of your rifle, whether tuning for ammo load or suppressor use. The straight gas tube eliminates heat build up from the weak points of standard gas tubes. And the roller cam pin ensures a smooth and more reliable relationship with the upper receiver. Featuring our Gen 4 billet lower receiver and Keylock Bolt Carrier Group, this receiver is completely ambidextrous and includes our flat 3.5 lb match grade trigger. Competition ready right out of the box. The magic in the upper receiver is held within our Keylock Bolt Carrier Group which is Nitride heat treated for maximum protection & reliability and features a keylocked gas key and single screw. The Renegade+ comes with our M-LOK compatible Renegade rail, covering the nitride heat treated barrel.
